

Rahitha Thangavel

IT Undergraduate

Colombo, Sri Lanka | trahitha10@gmail.com | +94 77 476 1393

PROFILE

Motivated IT undergraduate with a strong foundation in data analysis, statistics, and programming. Demonstrates the ability to analyze complex datasets, identify patterns, and extract meaningful insights to support data-driven decision making. Possesses strong analytical thinking and a continuous learning mindset, with an aspiration to build a career in Data Science and contribute to developing intelligent, insight-driven solutions in a dynamic technological environment.

EDUCATION

BSc(Hons) in Information Technology (CGPA: 3.76)

Department of Industrial Management I University of Kelaniya

Mar 2024 - Present

PROJECTS

Software Development Project (Individual)

Jul 2025 - Present

Designed and developed a web-based Chess Academy Management System to digitize manual processes such as student registration, attendance tracking, payment management, coach salary calculation, and tournament registration. Contributed to system analysis, database design, and full-stack development to ensure a user-friendly and scalable solution.

Technologies used: React (Frontend), Python (Backend), MySQL (Database), and Figma (UI/UX Design).

Gazette Chatbot – Retrieval-Augmented Generation (RAG) System (Group)

Jan 2026

Developed an AI-powered chatbot to enable efficient access and analysis of Sri Lanka's Legal Gazette documents using a Retrieval-Augmented Generation (RAG) pipeline. The system performs semantic document search and generates context-aware, citation-backed responses for user queries using Python, LangChain, Groq (Llama 3), ChromaDB, HuggingFace embeddings, and Streamlit.

SmartStudyApp – Intelligent Study Companion (Android Application) (Group)

Jan 2026

Developed an Android-based study companion application to enhance digital learning through document reading, annotation, and personalized study features. The application supports PDF/image viewing, note-taking, bookmarking, and context-aware adjustments to improve user experience using Java (Android), Android SDK components, and SQLite/Room for local data storage and state management.

CineBook – Distributed Online Movie Seat Booking System (Group)

Jan 2026

Developed a microservices-based distributed movie seat booking system to ensure consistent seat reservations under concurrent requests. Implemented real-time seat locking to prevent double booking, centralized database management for data consistency and NGINX for service routing and monitoring. Built using Java, REST APIs, MySQL, and NGINX.

SthreeHub – Web Application (User Authentication System) (Group)

Aug 2025

Developed a full-stack web application implementing secure user authentication and authorization features, including user registration with email verification, JWT-based session management, role-based access control, and password recovery functionality. The system integrates RESTful APIs between frontend and backend and was deployed on Microsoft Azure for scalability and availability, built using Node.js, React.js, MongoDB, JavaScript, and Azure.

SKILLS

Programming Languages - Python, JavaScript, C, C++, Java

Backend - Node.js, Express.js

Databases - MongoDB, MySQL, ChromaDB

DevOps & Cloud - Docker, Microsoft Azure

Analytical Skills - Excel (Pivot Tables), Power BI, Tableau

Soft Skills - Leadership, Adaptability, Teamwork, Continuous Learning, Problem Solving

CERTIFICATIONS

The Complete Excel Pivot Table: Data Analysis and Reporting

Jan 2025

EXTRA CURRICULAR ACTIVITIES

Delegates Coordinator in BR Avenue 25/26

LED KLN Club

Jul 2025 - Present

Member of the Chess Pool

University of Kelaniya

Oct 2024 - Mar 2025

Formal Compere/Moderator

Smart Computing and Systems Engineering (SCSE)

Apr 2025

Prefect and House Captain

Chundikuli Girls' College, Jaffna

2021

Chess Vice Captain

Chundikuli Girls' College, Jaffna

2014

ACHIEVEMENTS

Finalist (Top 5)

Venture Verse 2025, Sabaragamuwa University

Dec 2025

Finalist (Top 10)

Technopreneur Challenge, CodeFest 2025, SLIIT

Sep 2025
