PROFILE

IT undergraduate at the University of Kelaniya specializing in full-stack development and AI-integrated systems. Built and deployed production-level applications using React, Django, Python, and MySQL — including an individual year-long SDP and an AI compliance platform for a Fortune-level pharma company. Three-time hackathon finalist with a focus on building scalable, real-world solutions. Seeking a software engineering internship to contribute to impactful products.

EDUCATION

BSc (Hons) in Information Technology (CGPA: 3.62)

Mar 2024 - Present

Department of Industrial Management | University of Kelaniya

Dean's List — Year 1 (GPA: 3.87)

PROJECTS

Software Development Project (Individual)

Jul 2025 - April 2026

Designed and built a full-stack Chess Academy Management System from requirements to development as a year-long individual project.

- Handled end-to-end development: requirements gathering, system analysis, ER diagrams, activity/sequence diagrams, UI design, and full implementation
- Built the backend using Django + Django REST Framework with JWT-based authentication and role-based access for admins, clerks, coaches, and parents
- Developed a React frontend with Bootstrap, enabling management of student registration, attendance, payments, coach salaries, batch scheduling, and tournament registration
- Designed the MySQL database schema and integrated all modules into a cohesive, scalable platform

Tech: React, Django, Django REST Framework, MySQL, JWT, Bootstrap, Figma

Hemas PharmaComply AI – Automated Regulatory Compliance System (Group)

Apr 2026

- Led development of the Impact Predictor module which matches real-time price changes to internal product catalogs and auto-generates actionable business plans
- Integrated and merged teammates' modules (Q&A, deadline tracker, risk evaluator, change detector) into a unified pipeline
- System features automated gazette sync, page-preserving OCR, and a RAG pipeline for citation-backed document Q&A

Tech: Python, LangChain, Groq (Llama 3), ChromaDB, HuggingFace Embeddings, Tesseract OCR, pypdfium2, Streamlit

CineBook – Distributed Online Movie Seat Booking System (Group)

Jan 2026

- Built the backend concurrency logic — implemented real-time seat locking to eliminate double-booking under simultaneous requests
- Contributed to centralized database management ensuring data consistency across distributed nodes
- Configured NGINX for service routing and load monitoring

Tech: Java, REST APIs, MySQL, NGINX

SthreeHub – Web Application (User Authentication System) (Group)

Aug 2025

- Developed the full login and authentication flow — including email verification, JWT-based session management, and password recovery
- Deployed the application to Microsoft Azure using Docker containerization and CI/CD pipelines for scalable, consistent delivery

Tech: Node.js, React.js, MongoDB, JavaScript, Docker, Azure, CI/CD Pipelines

Gym Management System (Group)

Nov 2024

- Designed and implemented the MySQL database schema — structured to support memberships, scheduling, payments, and multi-role user management
- Ensured backend logic in Java Swing integrated cleanly with the database layer across admin, member, and instructor roles

Tech: Java Swing, MySQL

SKILLS

AI & LLMs: RAG | LangChain | Llama 3 | Prompt Engineering | Vector Databases (ChromaDB) | HuggingFace Embeddings

Programming: Python (Strong) | Java | JavaScript | C | C++

Backend APIs: REST APIs | Node.js/Express.js

Databases: MongoDB | MySQL | ChromaDB

DevOps & Cloud: Docker | Microsoft Azure

Soft Skills: Leadership | Adaptability | Problem Solving | Continuous Learning

CERTIFICATIONS

Programming in Python

Sep 2025

Meta

EXTRA CURRICULAR ACTIVITIES

Delegates Coordinator in BR Avenue 25/26

Jul 2025 - Present

LED KLN Club

Member of the Chess Pool

Oct 2024 - Mar 2025

University of Kelaniya

Formal Compere/Moderator

Apr 2025 - Present

Smart Computing and Systems Engineering.(SCSE)

ACHIEVEMENTS

Finalist (Top 10) | MVP Development

Dec 2025

AITHON 2026 | Hemas Holdings

Finalist (Top 5)

Dec 2025

Venture Verse 2025, Sabaragamuwa University

Finalist (Top 10)

Sep 2025

Technopreneur Challenge, CodeFest 2025, SLIIT
